5 Core Growth Strategies

- 1. Capitalize on peak windows:** Post within 8–10 AM and 6–8 PM slots; avoid 12–6 AM when impressions drop sharply.
- 2. Prioritize high-yield formats:** Target a 40% Carousel / 40% Reel / 20% Photo content mix; use carousels for technical breakdowns.
- 3. Keep hashtags tight:** Use 3–5 targeted tags per post: 1 broad (#TechNews), 2 niche (#PythonProgramming, #DataScience), 1 brand (#AlfidoTech).
- 4. Drive comment loops:** Close every caption with an open-ended question; reply to comments within 30 minutes of posting.
- 5. Standardize the aesthetic:** Clean, high-contrast visuals in Dark Navy / Electric Teal / White; consistent type for code and chart graphics.
